Principle 4. Change is led by measurable improvements in the safeguarding systems and outcomes for children and their families.

	PRIORITIES	DELIVERED THROUGH	OUTCOMES
e e	Safe at Home	 Earlier recognition of and response to Neglect The voice and lived experience of children is central to assessment and planning Effective care plans and placements for Looked After Children Effective Front Door and Early Help Services Services for children with SEND 	Children who are neglected will have their needs recognised early and receive the right level of support to improve outcomes. We will seek assurance that Children in Care have their needs assessed and met in timely manner.
ce of Children	Safe in the Community	 Prevention and protection from Exploitation Effective sharing of intelligence Proactive use of disruption Support services and pathways for victims and survivors 	Children who are being exploited in the community will be identified early. They will appropriate receive services which are informed by research on adverse childhood experiences.
Voice	Safe Safeguarding Systems	 Well understood and applied thresholds at the front door Safeguarding Self-Assessment (S11, S175) Effective safeguarding procedures and workforce development Safeguarding through commissioning activity Engagement with frontline practitioners Learning from Safeguarding Practice Reviews 	We will know if services and practice is effective and how this is improving outcomes for children. We will also identify areas for continuous Learning and improvement, eg Safeguarding Practice Reviews and challenge these to improve both practice and outcomes.
